

My weight loss story

Weight lost:
65 pounds

Before

After

Ashley T

“Dr. Finley helped me find myself again! Consulting with him to discuss weight loss options was so educational and helpful. Being prescribed an injectable weight loss medication, was a big help in my weight loss journey. Along the way, Dr. Finley shared some food and nutrition facts. This has given me the motivation I needed to get back into exercise and make better choices to improve my health and life! I can’t thank him enough for helping me find myself and my confidence again!”
