

My Weight Loss Story

Weight Lost: 85 pounds

Before

After

“I had my surgery six months ago and I am down 85 pounds. What a change it has made to my daily life. I am back to doing things that I loved and missed. I cannot thank Dr. Finley, Amanda and the entire bariatric team for their support. If you’ve contemplating having bariatric surgery, reach out to them for a consultation and discussed your options with them!”
